MAYOR WOULD CONDEMN RUM SALE BUILDING

Closing Building Property for One Year Urged as Penalty

PLAN COURT MOVE

Cooperation of County Attorney to Be Asked in Latest Move

Mayor Frank Francis this morning conferred with Assistant City Attorney Samuel Powell regarding steps to be taken in preventing further illicit liquor sales in soft drink parlors of Ogden.

Following the conference it was announced that a decision had been reached through which action may be taken in court to condemn buildings which are being used for liquor sales as nuisances and closing them for a period of one year through a court order. This will mean that the building would be compelled to be vacant for one year.

The action will be taken in instances where it is known that liquor is being sold and the proprietors have been prosecuted for law violations.

The extreme step was practically decided upon after orders for the closing of a year, that landlords of other buildings will be decidedly careful in renting to persons who might violate the laws.

A second conference is to be held within a few days at which the county attorney David J. Wilson will be asked to present and begin action against some places to declare them nuisances and close their doors, it was said.

MUCH BETTER OUTLOOK FOR SUGAR SHOWN

Surplus Going Rapidly and Year's Production 500,000 Tons Less

WASHINGTON, Sept. 2.—Sugar production for the year, 1922, will be nearly 500,000 tons less than for 1921, it was estimated today by the commerce department in a survey of the world situation.

World production for 1922 was put at 17,000,000 tons, as compared with 17,490,000 tons in 1921, when the consumption was estimated at 18,350,000 tons and the carry over into 1922, was estimated at 330,000 tons, as compared with the carryover of 1,700,000 tons from 1921 into 1922.

The abnormal surplus of Cuban sugar existing last January, the department declared, has apparently been absorbed and in addition the normal amount of the new Cuban crop has been taken. Revised estimates of world production for 1922, the department added, show 1,600,000 tons over the earlier estimates, owing largely to the unexpected size of the Cuban crop.

CONSUMPTION GREATER. The department stated, "also has exceeded all predictions, both in the United States and in Europe, and even with the revised crop figures for 1921-1922, the carryover for 1922 will not be far from normal. The gradual rise in C. and E. prices of Cuban raws to the present level, about double the low figure of 1.75c at the end of 1921, has no doubt been due to replenishing of insubstantial supplies and increased consumption and in particular to European demand."

SURPLUS GOING. The rapid distribution of the Cuban surplus since the beginning of the year, it was declared, was shown by the export figures for the first seven months of 1922, when Cuba exported 4,000,000 tons as compared with 1,400,000 tons for the same months of 1921, while during the same period the United States exported 755,000,000 tons of refined sugar against 255,000 tons during the corresponding months the previous year.

Cuban sugar production for 1922 was estimated by the department as 3,600,000 tons, compared with 4,000,000 tons in 1921, while the output of the United States, was estimated as 551,000 tons of beet sugar in 1922 as against 511,000 in 1921 and 268,000 tons of Louisiana cane against 290,000 tons in 1921.

Dictionary Is Pro-British, City Dad Says

Boston Lawmaker Would Ban Latest Webster From Hub City's Public Library

BOSTON, Sept. 2.—Alleging that it contains matter "as British as London bridge," Councilman Green "Jerry" Watson of Boston, has asked the trustees of the Boston public library to remove the latest edition of Webster's dictionary.

The attack on the dictionary is based on its definition of the word "constitution" which follows: "The principal or fundamental laws which govern a state or other organized bodies of men and are embodied in written documents, or are implied in the institutions and customs of the country or society."

In previous editions specific reference had been made to the constitution of the United States. The work, according to Councilman Watson, "is part and parcel of the Anglo-Saxon, monarchical propaganda which is insidiously undermining the study of Americanism of this country and weakening the people's loyalty toward the standards set by the revolutionary fathers."

JACKSON, Calif., Sept. 2.—Another attempt to construct a platform at the 2500 foot level will take place today in an effort to establish an air relay from the adjacent Kennedy workings to the Argonaut mine to aid in rescue work and to force fresh air into lower levels of the Argonaut where 47 men have been entombed since Sunday midnight. While there was no let up in rescue effort, the belief was growing that the imprisoned miners have perished.

FOUR DIMS HOPES. A muffled roar was heard Friday night by rescue workers and it was thought the blast meant another cave-in around the 400 foot level above the subterranean tunnel where the miners were imprisoned.

MORE LIBERAL ATTITUDE ON DIVORCE, AIM

Rector Says in Most Cases Relief Is Sought By Good Women

NEW YORK, Sept. 2.—The Rev. Percy Stickney Grant, rector of the church of the Ascension, Episcopalian, declared action at the coming triennial convention of the Protestant Episcopal church at Portland, Ore., by urging the delegates to liberalize the attitude of the church on the divorce question.

"The coming convention," he said, "there will be an attempt made so it is supposed, to narrow still further the attitude of the church. The object is to forbid re-marriage of all persons, innocent or guilty, who have been divorced for any cause."

Declaring that the basis for the position of the church is to be found in certain "supposed words of Christ," Dr. Grant stated that he doubted their authenticity, adding that the bible can not be made a handbook for modern lawmakers and that the church, can not organize modern life on texts found in the New Testament.

"The question of divorce is today a part of the woman's question," he said in conclusion. "Two-thirds of the divorces are asked for by women. Industrial independence will increase the number of divorces. Divorce used to be thought a scheme put forward by bad men to gratify their passions. In reality, it is a relief sought by good women."
